## Description

Enhance the hospitality experience in your establishment with the Black Electric Kettle 0.8 Liters New, the ideal solution for hotel rooms, resorts and local accommodations that value functionality.

With a modern black design and made of **high quality ABS**, this kettle stands out for its high resistance to heat and durability. With a power of 1500W, it ensures fast and efficient water heating, while its 0.8 liter capacity is ideal to avoid waste, providing the right amount for guest comfort and convenience.

Designed for maximum convenience in the hospitality sector, this electric kettle is very easy to open and handle, and includes a water level indicator for precise filling.

Its compact and ergonomic design, with **dimensions of 19.5 x 22.2 x 14.7 cm (height x width x depth) and a base diameter of 14 cm**, allows it to fit perfectly on hospitality trays, optimizing available space in the room.

Offer your guests the possibility to prepare their favorite hot beverages with a safe, practical and visually appealing solution, reinforcing the quality and attention to detail of your accommodation service.
