

Brick White Soap Modern Design

toilet brush

Description

- Unlike typical round brushes, our toilet brush has a crescent shape specially designed to reach areas difficult to clean around the rim. The rigid outer bristles are ideal for scrubbing difficult stains.
- The dome-shaped lid conveniently stores the toilet brush when not in use, keeping it hygienically and discreetly hidden. A unique magnetic collar protects the toilet brush lid, so you can carry them together without dripping.
- The brush head screws are removable for easy brush replacement.
- Durable, high-quality stainless steel rod withstands vigorous use.
