

Satin finished STAINLESS STEEL foldable shower seat

Description

The foldable shower seat is an essential solution to ensure comfort and safety during bathing, being especially suitable for hotels, hospitals, care homes and spaces adapted for people with reduced mobility. It allows the user to sit with stability, reducing the risk of falls in wet areas.

It stands out for its structure with support leg, which reinforces stability and increases load capacity. The foldable system allows the seat to be stored when not in use, freeing up space in the shower. Its robust construction ensures durability and reliability in intensive use environments.

• Technical features:

- Made of AISI 304 stainless steel with brushed finish, offering high corrosion resistance
- Dimensions: 450 x 410 mm (width x depth)
- Bar diameter: Ø32 mm
- Maximum supported weight: 110 kg (with proper installation)

Product in Store

[Satin finished STAINLESS STEEL foldable shower seat](#)

- Recommended installation height: 450 to 500 mm from the floor
- Includes fixing screws
- Includes non-conductive plates for electrical insulation

- **Maintenance:**

- Stainless steel requires maintenance, as dirt over time may damage the chromium (Cr) contained in it. Monthly cleaning with a specialized stainless steel product is recommended.

Invest in a safe, resistant solution adapted to the accessibility requirements of your facilities.
