[FUGA EVO stainless steel hand dryer with electronic sensor](#)

- Motor type: Universal
- Motor speed: 35000 r.p.m.
- Air velocity: 305 km/h
- Air flow rate: 2660 l/min
- Total power: 800 W
- Engine power: 800 W
- Voltage/Frequency: 220-240 V - 50/60 Hz
- Electrical insulation: Class I
- Distance to the sensor: 10-50 cm (with possibility of regulation)
- Double safety thermal fuse: set at 133°C
- Consumption: Maximum 3.5 A
- Sound level at 2 meters: 72 dBA
- Projection protection index: IPX1
- Dimensions: 327 height x 164 width x 151 depth (mm)
- Total net weight: 4.7 kg
- Estimated drying time: 10-12 seconds
