

Fly Killer UV Lamp with E14 20W Coated Thread

Description

- Low consumption, energy-saving E14i 20W UV fine screw lamp.
- Ultraviolet light for flying insect capture equipment.
- Thin bushing (E14) COATED.
- GLASSGUARD: High quality shatterproof Teflon (PTFE) coating prevents the risk of glass splinters being thrown out in case of breakage. Maintains the same light intensity.
- Recommended for critical areas of the food industry. Complies with HACCP regulations.
- For insect hunters (code [CB2900](#), [CB2901](#) and [CB2906](#))
