Electronic Key Cabinet with Code

Description

This electronic key cabinet with a capacity for 48 or 144 keys is the ideal solution for hotels, guesthouses, corporate spaces, and environments that require secure key management.

- Made of reinforced steel, the safe features a 4 mm thick door and a 2 mm body, ensuring protection against unauthorized access.

- The electronic system allows codes between 3 and 8 digits for both the standard user and the master user, and includes LED indicators and an acoustic signal to show security and power status.

- The unit runs on batteries and includes an emergency key for mechanical opening.

- In case of low battery, an automatic warning is issued.

- Installation is facilitated through 20 mm anchoring holes on the back panel.

- Key features:

  - Electronic key cabinet for 48 or 144 keys;

  - Material: reinforced steel;
