

1600W Wall-Mounted Hairdryer ABS

Description

Discover the practicality and efficiency of this wall-mounted hairdryer, ideal for hotels, guesthouses and Airbnb properties looking to combine functionality with safety.

With a **power of 1600W**, this professional ABS unit features a compact and modern design, available in matte black, matte white and matte grey finishes that fit perfectly into any environment.

The fixed wall installation allows you to optimise space, keeping the hairdryer always accessible and organised. Equipped with a switch for airflow speed and temperature adjustment, it offers two hot air settings for tailored drying, while the continuous push-button ensures safe use by activating the device only while pressed.

The 16 cm spiral cable connects the hot air handle to the wall base, enabling easy handling without tangling. With **dimensions of 22.2 x 15.9 x 9.93 cm (height x width x depth)**, it is ideal for shared environments where durability and reliability are essential.
