

Deposit Safe Depot E75 75x40x40CM

Description

The Depot E60 Deposit Safe is the ideal solution for offices and hotels that seek advanced security combined with everyday practicality. With a robust design, this safe stands out for its reinforced structure, with an 8 mm door and a 6 mm body, ensuring maximum protection against break-in attempts.

Equipped with a lever lock and emergency key in the lower compartment, it also offers an electronic keypad with illuminated display for easy programming of codes from 1 to 15 digits, as well as an 8-digit emergency code for unforeseen situations.

Security is reinforced by 25 mm bolts in five points, which act on three sides of the door, and by the anti-fishing drum that prevents improper removal of objects. The system also includes a programmable opening delay between 1 and 99 minutes, ideal for controlling access in professional environments. The low-consumption LED interior lighting facilitates viewing of the contents, while the integrated handle on the body ensures ergonomic and discreet handling.
