

Injection Spray Extraction Machine Power Extra 11 Ghibli

Description

The Injection Spray Extraction Machine Power Extra 11 Ghibli (standard version) combines compact dimensions with the typical performance of larger professional equipment. Designed for deep cleaning of textile surfaces, carpets, moquettes and upholstery, it is especially effective in the automotive sector and in professional operations that require precision and mobility.

Equipped with a powerful 48 W pump, it offers a spray rate of 1.1 liters per minute at 7 bar, ensuring an even application of the cleaning solution. The 11-liter solution tank is easy to fill thanks to the dedicated filling point, while the 12-liter recovery tank ensures efficient collection of dirty water, which can be emptied through the integrated drain hose or by completely removing the reservoir.

The **Standard version** includes a 3-meter flexible hose (Ø40), upholstery nozzle, floor nozzle and nylon protection filter. The Auto version stands out for its
