

1600W Steam Iron for Hotel

Description

The 1600 W steam iron (Y-879) was specially developed for the hospitality sector, including hotels, local accommodations, Airbnb, spas and resorts, ensuring an efficient and safe ironing service. With a durable and non stick ceramic soleplate, it offers smooth gliding over various types of fabrics, removing wrinkles with ease.

The adjustable temperature selector allows precise control, adapting to different materials for a professional finish. **This model stands out for its safety, incorporating an automatic shut off system in three positions:** switching off after 30 seconds of inactivity in the horizontal position, and after 8 minutes in the other positions, providing peace of mind for guests and staff.

It includes a 180 ml water tank, steam and spray function, as well as a self cleaning function for practical and long lasting maintenance.
