

Horizontal Polyethylene Diaper Changing Station Cb1

Description

The horizontal wall-mounted baby changing table provides parents with a safe and convenient surface for caring for their child.

With a modern and pleasant design, it can be used in restaurants, nurseries, shopping centers, hotels and even at home.

- Very easy to sanitize.
- Made of high-density polyethylene, which prevents bacteria and odors from forming.
- Resistant to major impacts.
- Offers a soft, concave area for changing your baby's diaper and two hooks for personal bags and purses.
- One-hand adjustable seat belt.
- Comes with included signpost (image 3).
- Complies with ASTM; G21; G22; ADA (USA);

Store Product

[Horizontal Polyethylene Diaper Changing Station Cb1](#)

ANSI (CE) standards.

- Measurements Closed: 87 x 45 x 10cm (Length x Width x Height)
- Measures Open: 87 x 45 x 39cm (Length x Width x Height)

Important notes:

- Baby changing racks are no stronger than the support that holds them to the wall, so they must be firmly secured to hold the weight for which they are intended. Only use the baby carriers for children up to 3 years old and weighing up to 22.6 kg.
- For more details, download the Technical Data Sheet.
