

Description

- Gravity operation that provides a flow of water for 6 minutes.
- Tank capacity: 24 liters.
- Small size and easy to handle.
- Suitable for industries, laboratories and generally where there is a risk of personal injury from fire, acids, chemical reagents, petroleum products, radioactive materials or other contaminants.
- CE compliant.
- Made from high-density polyethylene which is highly resistant to chemicals.
- The water flow is activated by pulling the retractable tray.
- The tray in the retracted position protects the water outlet from environmental contamination.
- Supplied with wall fasteners.

BOCCHI emergency showers and eyewashes fully meet the specifications required by the regulations:

- EN 15154-1 Standards for shower devices for the body connected to the water network and according to which the minimum spray flow must be at least 100 l/min. DILUVIO emergency showers with a flow rate greater than 120 l / min at 0.3 MPa.
- EN 15154-2 Standards for eyewash units connected to the water network and according to which the minimum flow rate of the eye drops must be at least 6 l / min. DILUVIO eye drops have a flow rate of over 14 l/min at 0.3 MPa.
- UNI9608 regulations governing the use of emergency showers and eyewashes.
- UNI10271 regulations governing the use of eyewash / laptop washers
- UNI7546 / 2 UNI7546 / 3 UNI7546 / 4 which requires the presence of an individual captive cartel for the shower and another for the emergency eyewash.
- Din 12899 PART 2
- ANSI Z358.1-2004 (American National Sanitation Institute).
