

Description

- 3-unit recycling bin built entirely from 1mm thick steel sheet with epoxy paint.
- Lids with a "swing" system, painted in the colour of the selective recycling bin.
- Vinyl lettering for each selective recycling bin.
- Rubber supports on the bottom of the recycling bin for contact with the ground.
- Container dimensions: 310 x 250 x 700 mm (length x width x height).
- Capacity: 38 litres each.

*Product manufactured in Portugal.

*Note: Suitable for indoor or outdoor use only in covered areas; for outdoor use we recommend stainless steel models.
