

Description

The straight grab bar was designed to provide greater safety and stability in bathrooms, being suitable for hotels, hospitals and spaces adapted for people with reduced mobility. Its use facilitates user movement in areas such as toilets, washbasins or shower zones.

The structure with two fixing points ensures a firm and reliable installation, even in intensive use environments. The brushed finish allows integration in different contexts, maintaining a discreet and professional appearance.

- **Technical features:**

- Made of AISI 304 stainless steel with bacteriostatic brushed finish;
- Dimensions: 450 x Ø32 mm (length x diameter);
- Bar thickness: 1.5 mm;
- Support diameter: Ø75 mm;
- Load capacity: up to 120 kg;
- Includes fixing screws.

- **Maintenance:**

- Stainless steel requires maintenance, as dirt over time may damage the chromium (Cr) contained in it. Monthly cleaning with a specialized stainless steel product is recommended.

Invest in a resistant, functional solution adapted to the accessibility requirements of your facilities.
