

Description

The new economical FR 30 SM represents something unique in the cleaning market. First and foremost, a new design makes the FR 30 a work of art in terms of aesthetics and ergonomics. With a 30-liter tank, high maneuverability and above all a complete set of integrated solutions, the FR 30 is suitable for any environment and surface:

Compact suction squeegee: only 65 cm and adjustable, for excellent drying results.

Complete filter kit (and waste tray), to protect the main components and provide the FR 30 with maximum reliability.

Performance: high speed (up to 4 km/h), high productivity, remarkable autonomy (2h00), and excellent results.

The FR 30 is now even more reliable thanks to the new integrated TOUCH system that allows you to move and control it with just one thumb: intuitive, user-friendly and reliable.
