

Description

Manufactured in the European Union from 18/8 stainless steel, it offers superior corrosion resistance and long-lasting durability, even under intensive use. The metal platform is covered with a non-slip mat to ensure secure handling of luggage, while the garment rail adds practicality for hanging extra items.

Equipped with two fixed and two swivel wheels (Ø 200 mm), it provides smooth manoeuvrability and stability on different surfaces, facilitating the work of reception and logistics teams.

With compact dimensions of **89 x 62 x 185 cm** (length x width x height) in this Small size, it fits easily into tight spaces without compromising load capacity.

Available in a larger version: [CB2795](#)

This is a strategic choice for hotel managers and procurement professionals who value European quality combined with functional and efficient design.
