

Description

The 80 cm Round Room Service Table is the perfect solution for hotels that value functionality combined with modern design. With a brushed stainless steel structure, it ensures durability and resistance, while the round water-repellent MDF top makes cleaning easy and offers everyday practicality.

The folding side flaps allow space saving when needed, and the 90-degree rotating top provides greater versatility in storage, making the service more efficient.

Equipped with four 9.5 cm diameter swivel wheels, two with brake, the table ensures mobility and stability during use.

With an 80 cm diameter and 78 cm height, it is also available to order in 90 and 100 cm versions, adapting to the specific needs of your hotel.

Recommended heating box / hotbox: [CB3006](#)

Ideal to complement heating boxes such as the [CB3006](#), this table was designed to optimise room service, combining practicality, quality and design in a single product.
