

Description

The 80 cm Foldable Support Bar in Brushed Stainless Steel with Paper Holder is the perfect solution to increase safety and accessibility in adapted bathrooms, hospitals, clinics, and public spaces.

- Manufactured from bacteriostatic AISI 304 stainless steel with a brushed/satin finish, this foldable support bar ensures resistance, durability, and easy maintenance.
- Its articulated design allows the bar to be folded away when not in use, optimizing space.
- It includes a paper roll holder, brake system, and anti-conductor kit, providing greater functionality and comfort for people with reduced mobility, the elderly, and wheelchair users.
- With a length of 80 cm and a Ø32 mm tube, it can be easily adapted to toilets, sinks, showers, and bathtubs.
- Installation is simple thanks to the stainless steel mounting plate and included screws.
- Ideal for those looking for a robust, safe, and practical stainless steel foldable bar for accessible bathrooms.
- Features:
 - Material: AISI 304 stainless steel
 - Finish: satin
 - Bar diameter: Ø32 mm
 - Bar length: 80 cm
 - Anchor plate dimensions: 300 x 100 mm (height x width)
 - Recommended installation height: 70-75 cm from top bar to floor
 - With brake and paper holder
 - Stainless steel fixings included
 - Anti-conductor kit included
- Maintenance: Stainless steel requires maintenance, as dirt over time can damage the chromium (Cr) it contains. We recommend monthly cleaning with a specialized stainless steel product.
