

Description

The foldable grab bar is an essential solution to ensure safety and support in bathrooms, being especially suitable for hotels, hospitals, care homes and spaces adapted for people with reduced mobility. Ideal for installation next to toilets, bidets, showers or bathtubs, it provides greater stability during user movement.

It stands out for its articulated system with vertical rotation, allowing the bar to be folded when not in use and optimizing space. It includes an integrated toilet roll holder, braking system for increased safety and anti-conductive kit. Its construction was designed for intensive use, ensuring reliability and comfort in daily use.

- **Technical features:**

- Made of AISI 304 stainless steel with bacteriostatic brushed finish, offering high corrosion resistance
- Dimensions: 600 x Ø32 mm (length x diameter)
- Fixing plate: 300 x 100 mm (height x width)
- Includes stainless steel screws
- Recommended installation height: 70 to 75 cm from the floor

- **Maintenance:**

- Stainless steel requires maintenance, as dirt over time may damage the chromium (Cr) contained in it. Monthly cleaning with a specialized stainless steel product is recommended.

Invest in a safe, functional solution adapted to the accessibility requirements of your facilities.
