

Description

The foldable grab bar was designed to provide additional support and safety in bathrooms, being especially suitable for hotels, hospitals and spaces adapted for people with reduced mobility. It provides firm support in areas such as toilets, bidets or shower zones, contributing to greater stability in user movements.

It stands out for the integration of a support leg to the floor, which reinforces stability during use. The foldable system with vertical rotation allows the bar to be stored when not in use, optimizing space. It also includes a toilet roll holder, ensuring greater functionality in daily use.

- **Technical features:**

- Made of AISI 304 stainless steel with bacteriostatic brushed finish;
- Dimensions: 750 x 100 x 800 mm (height x width x depth);
- Bar diameter: Ø32 mm;
- Structure with floor support leg;
- Includes toilet roll holder;
- Includes braking system;
- Includes stainless steel screws;
- Includes anti-conductive kit.

- **Maintenance:**

- Stainless steel requires maintenance, as dirt over time may damage the chromium (Cr) contained in it. Monthly cleaning with a specialized stainless steel product is recommended.

Invest in a robust, functional solution adapted to the accessibility requirements of your facilities.
