

Description

The 90° angled grab bar was developed to improve safety and accessibility in adapted bathrooms in hotels, hospitals, clinics, nursing homes and public sanitary facilities.

Made of AISI 304 stainless steel with satin finish, it offers high resistance to corrosion and durability in humid and high-use environments. The angled reversible design allows left or right installation, adapting easily to the available space.

- **Main features:**

- 90° angled grab bar;
- Made of AISI 304 stainless steel;
- Brushed/satin stainless steel finish;
- Structure with three anchoring points;
- Reversible left/right installation;
- Horizontal arm: 60 cm;
- Vertical arm: 60 cm;
- Tube with Ø3.2 cm;
- Steel thickness: 1.5 mm;
- Includes mounting components.

- **Maintenance:**

- We recommend regular cleaning with a suitable stainless steel product to preserve the finish and durability of the material.

Ensure greater safety and stability in your facilities with a resistant and functional solution.
