

## Description

This kit was designed to allow quick installation and removal of foldable grab bars, being especially useful in environments where space adaptation is frequent. Ideal for hotels, healthcare units and facilities that require flexibility in the use of support equipment.

Its stainless steel structure ensures resistance and durability, even in intensive use environments. It allows removing or reinstalling the bar as needed, facilitating the management of adapted spaces without permanent interventions.

Compatible with NOFER foldable bars [N1505160S](#), [N1505180N](#), [N1505180S](#), [N1505185S](#), [N15051SP80S](#) and [N15206S](#). Foldable bar not included.

- **Technical features:**

- Made of AISI 304 stainless steel with brushed finish;
- Dimensions: 330 x 160 x 10 mm (height x width x depth);
- System designed for frequent installation and removal of foldable bars;
- Compatible with various NOFER bar models;
- Foldable bar not included.

- **Maintenance:**

- Stainless steel requires maintenance, as dirt over time may damage the chromium (Cr) contained in it. Monthly cleaning with a specialized stainless steel product is recommended.

Invest in a flexible and durable solution to adapt your spaces efficiently.
