

## Description

---

The wall-mounted hair dryer was developed for use in hotel room and local accommodation bathrooms, ensuring safety, comfort and ease of use for guests.

Equipped with an automatic system, an ON/OFF button and two drying speeds, it allows simple and intuitive operation. The 1200 W power, combined with an air speed of 13 m/s, ensures efficient drying while keeping noise levels at around 60 dBA, suitable for the room environment.

Made of resistant ABS with a white finish and **dimensions of 200 x 90 x 155 mm**, it features a discreet and functional design that easily integrates into different bathroom styles. The IPX1 protection rating and Class II electrical insulation ensure safety for daily use in indoor environments.

**Warranty:** 2 years.

Compact and lightweight, weighing only 0.7 kg, this hair dryer was designed exclusively for installation in hotel room bathrooms and **is not recommended for locker rooms, swimming pools or spas**. Specific models are available for those environments.
