

Description

The Individual Recycling Bin Paper/Cardboard Painted 45L Black is the perfect solution for environments that value sustainability and organization such as hotels restaurants offices shopping centres and clinics.

Manufactured in Portugal this recycling bin stands out for its robustness being built in 0.8 mm painted steel sheet in black ensuring durability and easy maintenance. The hinged lid equipped with a hinge features specific painting that identifies selective recycling facilitating the correct separation of paper and cardboard.

With a central opening of 115 x 115 mm it allows practical and efficient waste disposal while the vinyl lettering reinforces environmental signage. For greater convenience it has an internal ring to support plastic bags as well as rubber supports that protect the floor and provide stability.

With a **capacity of 45 litres and dimensions of 74.5 x 25 x 25 cm (height x width x depth)** this container is ideal for **indoor use or covered outdoor areas** also offering the option to order in blue yellow and white adapting to different environments and needs. For outdoor use we recommend stainless steel models.
