

Description

The white grab bar was designed to improve safety and accessibility in adapted bathrooms in hotels, hospitals, clinics, nursing homes and public sanitary facilities.

Made of AISI 304 stainless steel with white epoxy-polyester finish, it offers high resistance and durability in humid and high-use environments. The straight design with two fixing points provides secure support in shower areas, bathtubs, sinks and toilets.

- **Main features:**

- Straight wall-mounted grab bar;
- Made of AISI 304 stainless steel;
- White epoxy-polyester finish;
- Structure with two fixing points;
- Available lengths: 45, 60 and 80 cm;
- Distance from bar to wall: 3.8 cm;
- Tube with Ø32 mm;
- Steel thickness: 1.5 mm;
- Recommended installation height: 70 to 75 cm from the floor.

- **Maintenance:**

- We recommend cleaning with a soft cloth and a suitable product to preserve the finish and durability of the material.

Ensure greater safety and comfort in your facilities with a resistant and functional solution.
