

Description

The white stainless steel grab bar was developed to improve safety and accessibility in adapted bathrooms in hotels, hospitals, clinics, nursing homes and public sanitary facilities.

Made of AISI 304 stainless steel with white finish, it offers high resistance to corrosion and excellent durability in humid and high-use environments. The straight design with two fixing points provides secure support in shower areas, bathtubs, sinks and toilets.

- **Main features:**

- Straight wall-mounted grab bar;
- Made of AISI 304 stainless steel;
- White stainless steel finish;
- Structure with two fixing points;
- Available lengths: 30, 45, 60, 80, 100 and 120 cm;
- Distance from bar to wall: 3.8 cm;
- Tube with Ø32 mm;
- Steel thickness: 1.5 mm;
- Recommended installation height: 70 to 75 cm from the floor.

- **Maintenance:**

- We recommend regular cleaning with a suitable stainless steel product to preserve the finish and durability of the material.

Ensure greater safety and functionality in your facilities with a resistant and professional solution.
