

Description

Elegant, durable and compact.

These are the highlights of the Cubo5 welcome tray. Many people assume that this coffee and tea tray is made of solid wood, but it actually consists of high quality ABS/plastic. Provides excellent resistance to heat, water, stains and scratches. In addition, ABS is more economical than solid wood.

Another unique feature is the easy-to-clean, removable stainless steel "drip tray" for used bags and teaspoons. Eliminates the need for saucers. At this moment, the CB5 hospitality tray is available in black.

- Dimensions: 36 x 4 x 43cm (length x height x width).
- Boiler diameter that accepts tray: 14.5cm
- Measurements for placing the coffee maker: 36 x 16 cm (length x width)
