

## Description

The CuboHotel S1 1200W wall-mounted hair dryer was developed to equip room bathrooms with a safe and functional solution. Ideal for hospitality and local accommodation, it combines durability, control and professional image.

- **Benefits and main features:**

- Wall-mounted installation with wall support;
- 1200W power suitable for daily use in hotel rooms;
- Manual regulator with two hot air speeds;
- Reduced noise level of 55 dB;
- Class II electrical insulation for greater safety;
- High-resistance white ABS structure;
- Easy maintenance and cleaning;
- Engraved with CuboHotel logo;
- Wall base dimensions: 9.3 x 12.5 x 10 cm (Length x Height x Width);
- CE certification.

This dryer was designed for hotel room bathrooms, local accommodation and other tourist units. It is not suitable for locker rooms, swimming pools or spas. For those environments there are specific models recommended for greater exposure to humidity.

Choose a professional wall-mounted hair dryer, developed to ensure consistent performance, electrical safety and durability in hospitality environments with daily use.
