

Description

This grey bottle transport basket with handle is the ideal solution for the safe and organised transport of bottles in hotel environments.

Entirely made of 100% recycled polypropylene, it is eco-friendly, corrosion-resistant, and fully recyclable, contributing to more sustainable management.

Its functional design includes removable dividers that allow the space to be adapted as needed, and an ergonomic handle that ensures safe and comfortable transport.

With dimensions of 33 x 28 x 26.5 cm (length x width x height), it is ideal for housekeeping teams who value organisation, efficiency, and sustainability.
