

Description

The Bigflow EVO hand dryer is the ideal solution for high traffic spaces, such as hotels, shopping malls, commercial centres and offices that seek to combine efficiency, hygiene and durability. Manufactured in stainless steel in a single piece, this hand dryer stands out for its robustness and vandal resistant design, ensuring total safety for users thanks to the absence of sharp edges or dangerous components.

Equipped with an electronic infrared sensor, the device activates automatically when detecting hands and switches off a few seconds after they are removed, providing fast and efficient drying in about 40 seconds.

With a power of 2050 W and temperature of 60°C, the universal brushless motor offers high performance without the need for maintenance, ensuring quiet and long lasting operation. This model has **dimensions of 28.4 x 21.8 x 10.2 cm (height x width x depth)**, adapting easily to different environments.

Robust, vandal resistant and safe, as it is built without sharp edges or other dangerous elements. In compliance with European safety directives (CE). It includes a thermal safety limiter and an automatic stop system in case of vandalism.

With drying time adjustable between 0 and 90 seconds, this equipment combines advanced technology and functional design to ensure a practical and hygienic experience in places with a high flow of people.

Warranty: 3 Years
