

Description

The straight grab bar was developed to provide greater stability and safety in bathrooms, being especially suitable for professional environments such as hotels, hospitals and care homes. Its use facilitates user movement in wet areas, such as near toilets, washbasins or shower areas.

Its linear structure with two fixing points ensures a firm and reliable installation, even in intensive use contexts. The brushed finish provides a discreet and versatile appearance, allowing harmonious integration in different environments. Its robust design ensures resistance and durability over time.

- **Technical features:**

- Made of AISI 304 stainless steel with bacteriostatic brushed finish;
- Dimensions: 300 x Ø32 mm (length x diameter);
- Bar thickness: 1.5 mm;
- Distance between fixing centers: 300 mm;
- Distance from wall: 38 mm;
- Recommended installation height: 70 to 75 cm from the floor to the bar;
- Includes stainless steel screws;
- Includes anti-conductive kit.

- **Maintenance:**

- Stainless steel requires maintenance, as dirt over time may damage the chromium (Cr) contained in it. Monthly cleaning with a specialized stainless steel product is recommended.

Invest in a resistant, discreet solution designed for professional use.
