

Description

- Three-position installation.
- High energy efficiency: Class 'C'.
- 200 liter capacity.
- High-resistance vitrified steel tank.
- Magnesium anode.
- External temperature regulation.
- Operational pilot.
- Power: 2000W.
- Tubular heater with replaceable sheath without the need to empty.
- Bulb thermostats for temperature regulation and double safety.
- Stainless steel inlet and outlet pipes.
- Safety valve set at 8 bar.
- Reinforced expanded polyurethane insulation.
- Full 2-year guarantee
- 5-year guarantee for the boiler.
- Voltage: 230V
- Frequency: 50-60 Hz
- Class I
- Degree of protection: IPX4
- Consumption profile: XL
- Dimensions: 136x54x57 cm (HeightxWidthxLength)
