

Description

The Hotel Goods Transport Trolley is a practical and sturdy solution for moving products, equipment, or small loads in professional environments.

- Made of high-quality stainless steel, it ensures durability, corrosion resistance, and easy maintenance, even with intensive use. The structure includes an ergonomic handle and a perforated base that keeps items stable during transport.
- The swivel wheels, with a 9.5 cm diameter, provide smooth mobility, allowing quick and safe movement through corridors, storage areas, kitchens, or service zones.
- With compact dimensions, it adapts perfectly to hotels, restaurants, hospitals, offices, and other spaces that require efficiency and organization in material transport.
- Key features:
 - Stainless steel frame and handle, strong and easy to clean;
 - Perforated base for greater load stability;
 - 9.5 cm swivel wheels allow safe manoeuvring on different floors;
 - Dimensions: 62 x 88 x 44 cm (length x height x depth);
 - Base dimensions: 61 x 41 cm (length x depth);
 - Compact design, ideal for corridors and small areas;
 - Robust construction for daily use in hospitality and services.
- Ideal applications: hotels, guesthouses, restaurants, bars, catering areas, hospitals, clinics, offices, storage areas, or internal logistics.
