

Description

The foldable shower seat is a functional solution to ensure comfort and safety during bathing, being suitable for hotels, hospitals, care homes and facilities adapted for people with reduced mobility. It allows safer use in wet areas, reducing the risk of falls and supporting user independence.

It stands out for its soft closing system, which avoids impacts and increases the durability of the equipment. The textured, anti-slip surface with antimicrobial finish contributes to greater hygiene and safety during use. The quick conversion system allows easy adaptation of spaces to accessibility needs, making it ideal for environments that require flexibility.

- **Technical features:**

- Structure in EN 1.4301 (AISI 304) stainless steel with brushed finish;
- Textured, anti-slip and easy-to-clean surface;
- Soft closing system with damper;
- Dimensions: 15 x 39 x 43 cm (height x width x length);
- Maximum supported weight: 150 kg.

- **Installation:**

- Fixing accessories must be selected according to the structure where the product will be installed;
- Selection and installation must be carried out by a professional.

- **Maintenance:**

- Cleaning is recommended with a cotton cloth slightly dampened with soapy water. Then dry the surface.

Invest in a comfortable, hygienic and adaptable solution for the accessibility requirements of your facilities.
