

## Description

- High-end hand dryer with laser sensor. High velocity airflow operation.
- AISI 304 stainless steel outer casing.
- Designed for wall installation.
- Intelligent heating element that activates if the room temperature drops to 25°C. Comfortable to use.
- High performance and efficiency. Consumption up to 85% lower than other conventional dryers.
- Water tank of 0.8 liters and HEPA filter included.
- Suitable for communities and places of very high frequency of use.
- Robust, vandal-proof and safe for being built without sharp edges or other dangerous elements.
- Conforms to European safety directives (CE).
- Material: AISI 304 stainless steel
- Finishing: Satin
- Air outlet temperature: at ambient temperature of 20°C, temperature: 38°C at 10 cm
- Motor type: Universal
- Motor speed: 21000 r.p.m.
- Air velocity: 342 km/h
- Effective flow rate: 4377 l/min
- Total power: 1650 W
- Power resistance: 850 W
- Engine power: 800 W
- Voltage/Frequency: 220-240 V - 50/60 Hz
- Electrical insulation: Class I
- Consumption: Maximum of 7.2 A
- Sound level at 2 meters: 72 dBA
- Projection protection index: IPX4
- Dimensions: 730 height x 300 width x 222 depth (mm)
- Total net weight: 12.5 kg
- Estimated drying time: 11-12 seconds
