

Description

- SPIRELLA JET toilet brush
- Finish: Cormed.
- Material: Stainless steel.
- Brush head treated with Sanitized hygiene function.
- Flexible: Allows cleaning under the edge of the toilet.
- Efficient: The transverse ribs allow effective rubbing and the flexible material allows access to all corners.
- Hygienic: Antibacterial treatment with Sanitized hygiene function.
- Ergonomic: good grip and aesthetic design.
- JET is Spirella's hygienic answer to the bacteria nests that are toilet brushes.
- The JET head is made of flexible thermoplastic elastomer.
- The shape, inspired by the traditional brush head, is optimized and enhanced with very practical accessories such as the three flexible flaps and the cleaning ribs.
- The flexible flaps can slide easily under the edges of the toilet and into the smallest corners.
- The cleverly placed transverse ribs further enhance the cleaning effect.
- The special flexible plastic has been durably treated against bacteria with a biocide (active substance: zinc pyrithione).
- Dimensions: 39.5 x 8 cm (Height x Diameter)
