

Description

The Jet Smart Black Hand Dryer is a high-performance professional solution, ideal for hotels, restaurants, shopping centres and spaces with high turnover. Manufactured in the EU and CE approved, it combines high-quality materials, advanced technology and a design focused on maximising user experience.

Made of durable ABS, it includes a drying area in antibacterial ABS with silver ions, ensuring protection against bacteria, fungi and mould. The 540 km/h warm air curtain provides drying in around 10 seconds, with low noise and reduced consumption.

The model includes an **antibacterial HEPA filter** capable of removing over 99.9% of airborne particles. These filters retain dust, mites, mould, pollen, bacteria and even viral particles, creating a cleaner and safer environment.

Main features:

- Fabricated in high-resistance ABS;
- Antibacterial ABS drying zone (silver ions);
- Drying in approximately 10 seconds;
- Air speed: 540 km/h;
- Antibacterial HEPA filter (removes >99.9% of particles);
- 0.5 L drip tray;
- Informative LEDs and alert sensors;
- Motor: 1,000 W;
- Total power: 1,500 W;
- Air temperature: 40°C;
- Low noise: 65.6 dB;
- **IP21, Class II;**
- Optimised consumption (heater switches off above 25°C);
- **Dimensions: 320 x 180 x 540 mm (length x width x height);**
- Weight: 6.85 kg;
- Warranty: 3 years.

A hygienic, fast and robust solution, perfect for raising the standard of your professional space.
