

Description

The Proapliq 20W HACCP Insect Catcher Fly Killer is an electric fly trap, ideal for environments requiring strict and discreet pest control, such as restaurants, professional kitchens, grocery stores, clinics, hotels, and other food spaces.

- This UV insect catcher attracts flies, mosquitoes, and other flying insects using a low-consumption 20W lamp and captures them on an odorless, silent, chemical-free adhesive board.
- Complies with HACCP standards: ideal for food areas following hygiene and safety regulations
- Includes UV lamp + adhesive board – ready to use
- Features:
 - Lamp: 20W low consumption (E14 fine screw included)
 - Coverage area: 40m²
 - Installation: place or wall-mount
 - Color: matte white. Also available in black: [CB2900P](#)
 - Dimensions: 40.6 x 17.5 x 20.0 cm (length x width x height).
 - Weight: 1.2Kg.
- Maintenance and refills:
 - Adhesive board replacement: once a month. Reference [CB2960](#) - Pack of 6 units
 - UV lamp replacement: once a year. Reference [CB2999](#) - E14 Fine Screw Lamp
