

## Description

- Reduce expenses, worries, wasted time and increase customer satisfaction with our innovative technological solutions for Hotels / Local Accommodation.
- It promises to adapt and transform any cupboard, fixed or mobile locker into a "Vending Machine" product dispenser
- The differentiating factor of the Pick-a-Buy System is that it is free of heavy hardware and infrastructure, flexible and versatile.
- Adapting the Pick-a-Buy system to a product dispenser allows customers in a hotel/local accommodation to buy products they may need, safely, simply and easily using their smartphones.
- Simply scan the QR Code, choose, pay and conveniently pick up the desired product.
- For all types of products (except perishables).
- 100% self-service.
- No coins/notes
- No keys, either to pick up or to put back.
- 100% silent, with no operating noise.
- With alarm and tamper warning.
- Remote control and management via the Internet.
- The cost of the set-up alone is around a quarter of the price of any other similar solution.
- It can be easily installed with 6 screws wherever you need it. All you need is a door that can be opened and accessed via cell phone, tablet or QR Code, without the need for an electrical network or Wi-Fi.
- The Pick-a-Buy system is not an infrastructure, it is a technological solution for managing the opening and closing of any type of cabinet via any type of interface (tablet app, smartphone, keyboard, QR Code, NFC, etc.)
- The system can be installed on any material and used by anyone.
