

Description

- Reduce expenses, worries, wasted time and increase customer satisfaction with our innovative technological solutions for Hotels / Local Accommodation.
 - Smart boxes, which promise to adapt and transform any cupboard, fixed or mobile locker into a box for storing/depositing objects for a limited time.
 - The differentiating factor of the Pick-a-Buy System is that it is free of hardware and heavy infrastructure, flexible and versatile.
 - Hotel/local accommodation customers (indoors or outdoors) can safely store their luggage simply and easily using a QR Code and their smartphone or tablet.
 - 100% automatic, digital, permanent, simple and easy for everyone.
 - 100% self-service operation.
 - Simply scan the QR Code, choose, pay and conveniently store your luggage for as long as you want.
 - During the storage period, you retain unconditional access to your luggage.
 - No coins/notes
 - No keys.
 - 100% silent, no operating noise.
 - Remote control and management via the Internet.
 - The cost of the set-up alone is around a quarter of the price of any other similar solution.
 - It can be easily installed with 6 screws wherever you need it. All you need is a door that can be opened using a cell phone, tablet or QR Code to access the contents, without the need for an electrical network or wi-fi.
 - The Pick-a-Buy system is not an infrastructure, it is a technological solution for managing the opening and closing of any type of cabinet via any type of interface (tablet app, smartphone, keyboard, QR Code, NFC, etc.)
 - The system can be installed on any material and used by anyone.
- *Powered by Pick-a-Buy
