

## Description

- Horizontally oriented changing platform for wall mounting.
- Material: polypropylene.
- Color: cream.
- Model suitable for communal bathrooms.
- More beneficial for public toilets.
- Injection-molded polypropylene with antimicrobial additive incorporated into the platform surface.
- Includes mounting screws.
- Labeled instructions for use and safety messages in four languages.
- With two-cavity wipe dispenser.
- Concealed pneumatic cylinder for controlled, slow opening and closing of the platform.
- Polypropylene is easy to clean and resists odors and the growth of contaminants.
- It meets ASTM static load performance requirements when installed correctly.
- The platform has a concave area for changing the baby with a safety strap.
- Dimensions:
  - 912 x 527 x 101 mm (Closed)
  - 912 x 539 mm (Open)

**\*WARNING:** To ensure that the unit can withstand the expected loads, the changing unit must be installed correctly according to the manufacturer's instructions.
