

## Description

---

The foldable grab bar is an essential solution to reinforce safety in bathrooms, being especially suitable for hotels, hospitals, care homes and spaces adapted for people with reduced mobility. Suitable for installation next to toilets, bidets, showers or bathtubs, it provides firm support and greater confidence during use.

It stands out for its articulated system with vertical rotation, allowing the bar to be folded when not in use and freeing up space. It includes a braking system, toilet roll holder and anti-conductive kit, ensuring additional safety and adaptation to different needs. The black finish allows integration into modern and distinctive design projects.

- **Technical features:**

- Made of AISI 304 stainless steel with black finish, offering high corrosion resistance
- Dimensions: 800 x Ø32 mm (length x diameter)
- Fixing plate: 300 x 100 mm (height x width)
- Includes braking system and toilet roll holder
- Includes stainless steel screws
- Recommended installation height: 70 to 75 cm from the floor

- **Maintenance:**

- Cleaning is recommended with a cotton cloth slightly dampened with soapy water. Then dry the surface.

Invest in a safe, resistant solution adapted to the accessibility requirements of your facilities.
