

## Description

Equipped with a **removable inner bucket (39 x 23 cm)**, it allows practical maintenance without complications. With **dimensions of 65 x 25 cm (height x diameter)**, it easily adapts to various outdoor environments, supporting continuous use thanks to its robust structure and moderate weight (4.54 kg).

Ideal for places where maintaining the space organized and free of solid waste and ashes is essential. The durability of stainless steel ensures resistance to adverse weather conditions typical of hotel exteriors and commercial centers.

With a one-year warranty, it is a reliable investment for hotels, restaurants and commercial spaces that seek quality in outdoor common areas.
