

Description

The straight grab bar is an essential solution to reinforce safety in bathrooms, being especially suitable for hotels, hospitals, care homes and spaces adapted for people with reduced mobility. It provides stable support in areas such as washbasins, toilets, showers or bathtubs, helping to prevent falls.

It stands out for its structure with two wall fixing points, ensuring stability and reliability during use. The matte black finish allows integration into modern environments, maintaining a discreet and professional aesthetic. Its construction was designed to withstand intensive use with high performance.

- **Technical features:**

- Made of AISI 304 stainless steel with bacteriostatic matte black finish;
- Dimensions: 600 x Ø32 mm (length x diameter);
- Bar thickness: 1.5 mm;
- Distance between fixing centers: 600 mm;
- Distance from wall: 38 mm;
- Recommended installation height: 70 to 75 cm from the floor to the bar;
- Includes stainless steel screws;
- Includes anti-conductive kit.

- **Maintenance:**

- Cleaning is recommended with a cotton cloth slightly dampened with neutral soapy water. Then rinse and dry.

Invest in a safe, resistant solution adapted to the accessibility requirements of your facilities.
