

Description

The MINI VAULT is the ideal safe for those looking to protect their belongings at home or in the office securely. This overlay safe stands out for its **robust body, with 2 mm thickness, double key lock, and a reinforced door** that ensures resistance against common break-in attempts.

Equipped with two 18 mm diameter bolts and Ø12 mm anchoring holes (2 wall and 2 floor), it offers solid fixing that increases the protection of your personal items. The light grey finish (RAL 7035) gives it a discreet design that easily blends into any domestic or professional environment.

Available in **three capacities: 5 litres, 8 litres, and 23 litres**. It adapts perfectly to your needs, whether to store important documents, jewellery, or other essential valuables.

The simple mechanical lock enables intuitive handling without compromising security. Lightweight and practical, it weighs only 14 kg in its largest version, making it easy to transport when necessary, while maintaining adequate resistance for daily use.
