

## Description

- **Ideal solution for deep and efficient cleaning of small spaces.**
- Compact and ergonomic design
- The walk-behind scrubber offers superior performance compared to traditional mops.
- More hygiene, speed and efficiency in removing dirt and bacteria.
- **Main features:**
  - **Advanced Cleaning Power** – The orbital washing head delivers exceptional performance with 4,200 vibrations per minute, effectively eliminating bacteria and ingrained dirt.
  - **More Sustainable and Economical** – Uses 1/3 less water compared to similar equipment, reducing waste and operating costs.
  - **Fast and Efficient Battery** – Quick replacement and charging with 1 hour of autonomy per charge cycle.
  - **Simple Maintenance** – Magnetic quick-fit and release disc system, allowing for agile replacement without the need for tools.
  - **Smart Design** – Intuitive control panel with 3 buttons and adjustable settings to optimize the cleaning process.
  - **Total Accessibility** – Compact structure that allows reaching difficult corners, congested areas and narrow spaces, easily cleaning under furniture and shelves.
  - **Efficient "S" Movements** – Equipment ergonomics facilitate quick and uniform cleaning of large areas, optimizing time and effort.
- Ideal for environments such as: hotels and restaurants, offices and commercial spaces, clinics and hospitals.
- **Included accessories:** 24V 5A charger, 25.2v 5AH lithium battery, Linatex lip kit, PAD holder.
- Voltage (V): 25.1
- Battery charging time: 60-95 min
- Nominal power (W): 120-145
- **Dimensions:** 43 cm x 23 cm x 149 cm (Length x Width x Height).
