

## Description

- **Modular system of benches and planters** in different heights and shapes (square and diamond) that can be combined to create resting areas with unlimited configuration possibilities in both shape and size.
- Available bench models:
  - Low square bench – Height: 450 mm
  - Tall square bench – Height: 880 mm
  - Low diamond-shaped bench – Height: 450 mm
  - Tall diamond-shaped bench – Height: 880 mm
- Available planter models:
  - Low square planter – Height: 420 mm (240L)
  - Tall square planter – Height: 850 mm (530L)
  - Low diamond-shaped planter – Height: 420 mm (220L)
  - Tall diamond-shaped planter – Height: 850 mm (450L)
- Benches are available with 3 slat options for the seating area:
  - Recycled plastic (ReciPlast)\*
  - Brushed synthetic wood WPC\*
  -

Tropical wood

- The planters feature drainage holes at the base. Both benches and planters have height-adjustable legs and can be fixed to the ground with 4 M8 expansion bolts (included).
- Manufactured in galvanised steel with thicknesses of 1.5, 2 and 3 mm, and finished with a thermosetting polyester resin powder coating. The planter structure includes a zinc-rich primer.

\*These are eco-friendly slat versions. They require no maintenance and are highly resistant to adverse weather conditions.

- Suitable for indoor and outdoor use in normal weather conditions. For extreme environments, such as high salinity, temperature or humidity, an additional special treatment can be applied. Contact us for pricing.
- Only benches with the same type of slats can be combined (benches with different types of slats

cannot be combined).
