

Description

Robustness and practicality for transporting luggage in hotels and high-traffic areas.

- The polished stainless-steel luggage cart offers durability, stability, and mobility for moving heavy or bulky loads.
- Its sturdy structure, with 51 mm tubes and 0.8 mm thick steel, ensures resistance even under intensive use in hotels.
- Equipped with 2 directional wheels and 2 universal 6" (15 cm) wheels, it allows smooth movement and easy control on different types of floors.
- The black non-slip carpet protects luggage from scratches and sliding, while the pre-assembled delivery ensures immediate use.
- Key features:
 - 0.8 mm stainless-steel structure, polished finish;
 - 51 mm tubes for greater strength and stability;
 - 2 directional + 2 universal 8" (20 cm) wheels for full mobility;
 - Black non-slip carpet to protect luggage;
 - Supplied fully assembled and ready to use;
 - Dimensions: 113 x 67 x 189 cm (L x W x H).
- Ideal applications: hotels and resorts, convention and event centers, reception areas with high luggage flow, and corporate spaces requiring the transport of bulky loads.

Simplify luggage transport in your hotel with a resistant, functional, and ready-to-use cart.
