

Description

The 0.5L Satin Stainless Steel Hotel Electric Kettle is the ideal solution for hotels, tourist apartments, and local accommodations seeking practicality, safety, and modern design.

- With a 0.5-liter capacity and 1000W power, this electric kettle heats water quickly and efficiently, making it perfect for preparing tea, instant coffee, or infusions in your guests' rooms.
- Its satin stainless steel structure guarantees resistance to high temperatures and durability, while the automatic shut-off system provides greater safety during use.
- The compact and lightweight design makes it easy to handle and store, making it an excellent choice for limited spaces or travel use.
- The kettle is easy to open, use, and clean. Regular cleaning with a damp cloth and removal of limescale residues is recommended to ensure proper functioning and prolong the appliance's lifespan.
- Do not use abrasive products to preserve the satin finish.

Ideal for those who value efficiency, safety, and comfort, the 0.5L Hotel Electric Kettle is essential in any modern hospitality environment.
