

Description

The shower cap is one of the most practical and indispensable hotel bath amenities for ensuring guest comfort and hygiene. This item is presented in an elegant stone paper packaging with an easy-open system, fully aligned with the requirements of eco-friendly hotel amenities.

- Made from biocompostable material, this hotel shower cap respects the environment without compromising quality and user experience.
- Ideal for hotels, guesthouses, resorts, and boutique hotels, it offers a touch of care and environmental concern.
- Each unit is individually sealed, ensuring the product has not been handled before use and meets the highest hygiene standards.
- The packaging is FSC® certified, proving it comes from sustainable sources and reinforcing the brand's commitment to responsible practices.
- Available in boxes of 500 units, it is an excellent option for those wishing to purchase eco-friendly amenity kits.

This biodegradable shower cap integrates perfectly into any amenities set for guests concerned with well-being and sustainability, making it a conscious and sophisticated choice.
